Introduction:

Hi! Zaf Barnes here from [FiftyPlusMarketer.com](https://www.fiftyplusmarketer.com), first I would like to thank you for downloading “17 Rapid Side Hustles” report...

In the following pages you'll learn 17 various ways on how you can make money online, every one of these are legit and legal ways for you to earn an extra bit of money and some you can even turn into a full-time business if you so wished.

Just pick one or more from the list that most appeals to you, read the brief description and click the link to go to the website(s). Although a lot are US sites most do allow you sign up from outside the US.

I've chose these specific 17 as these are reliable and full proof ways to make some money online.

But first, before we get into this, we need to make sure that we have the correct mindset for making money online.

Now I'm not going to give you a lecture (but just know that having the correct money mindset will help with making money) the only thing I will say and probably the most important is having the belief that success is possible!

Instead, here is a link to find out more if you so wish ☺

<https://www.daveramsey.com/blog/understanding-your-money-mindset>

One or two of these ideas you may have come across before, I've tried to only include those that don't require any or little experience and can be done from home especially during the current global pandemic.

Now I've not tried every one of these but just a couple, you can quickly scan through these and just cherry pick the ones that appeal to you and give those a try.

Most of these don't require any upfront cost while one or two may require a little upfront money to get started with.

In the resources and link section you'll find a few more sites and resources to help you

1. Surveys:

Completing paid surveys online is an easy way to make money online, that pay in various ways from gift cards, real cash and other perks. If you decide to try this option, I advise you to create or use an email just for doing these surveys.

You're not going to get rich taking surveys, but you can earn some extra money that could help you.

I've done my best to try and find legit survey sites there are some dodgy ones out there, so it's always best to do your own due diligence first before joining any survey sites, but this should be enough to get you started with.

I've listed a couple here and also a site where you can find some more legit surveys and that gives you a bit more information if you decide you want to give taking surveys ago.

5. Get Paid for shopping online:

You may be wondering how do you get paid for shopping online? Sites that are called cash back sites receive a commission for referring online shoppers to merchants. When you buy something through these sites from a merchant that partners with these cashback sites, the sites pass on some of the commission to you.

That free money is then known as cashback. There are literally thousands of these online merchants you can earn cashback from, such as Amazon, Bingo sites, travel booking sites and much more.

Cashback Sites:

6. No-Risk Match Betting:

In the UK this is probably the quickest method I've found for myself to make money legally online. This works by taking advantage of the free bets that are offered by betting sites and this is something that I've successfully used for the past 4 months.

I was doing this for 4 months and still do when I've the time, in the first week I earned £196.37 or about \$265.54 tax free!

Now if you're not in the UK you'll need to check if you would have the same benefits. I know in the UK you don't pay any taxes as it's considered gambling, although I can assure you its definitely not.

9. Sell Books

Sell second-hand textbooks:

At end of the year, purchase other students' textbooks and sell them when the students enroll the following year on Amazon or eBay. You don't need to be a student to take advantage of buying and selling textbooks.

A good way to do this is either buy from [BookScouter](#) and list them on eBay or the other way around, always check on eBay the sold for prices in completed listings to have an idea of what the book might go for.

Buying domain names or domain flipping as it's known is like the real estate of the online world, every website requires a domain name, and like real estate domains can be bought and sold.

You can buy a domain that is expiring for as little as \$12 and potentially sell it for a lot more but learning this is something that takes time and is not a quick overnight thing. To learn more about what domain flipping is click [here](#).

If this is something that you think would be of interest to you, you can simply search on google or YouTube for domain flipping and find plenty of how to guides there.

A focus group is a small group of people that have been invited to share their opinions either in person or online. An online focus group is similar to an offline one, you join an online chat using your mobile device which you receive a link to through an email.

Which allows you to join the focus group and give your feedback. Some use video or specific web-based software to do this. Each focus group is different, and you can expect to earn between **\$30- \$150** per focus group, but this can vary.

The amount of time to complete these is around 1 – 2 hours, payment is usually via PayPal, check or gift card.

17. **Transcription:**

Transcription jobs especially for working from home are extremely popular, transcribing involves listening to audio files and then converting them to text, have the advantage of being able to be done from almost anywhere and at any time.

The three main areas are medical, legal and general. Most starting out don't tend to have specific experience in the first two so opt for the general area. Although you need to be punctual and proficient in spelling as well as accurate.

But nowadays this isn't so much of an issue as you have tools such as word processors and grammar checking tools.

One other thing you'll need is to be accustomed to repetition as you'll need to replay the audio a few times until you can perfectly capture all of the words
